

Apiary Summary – Information to inform next inspection. Scan/write & email to tony.lack@gmail.com

Lead: Nigel _____ Assistants: ___None_____ Date: 31/03/20 Weather: Cool

Hive	Brief Summary	Today's Actions	Actions for next time/week
5	Queen not seen, ELB 3 frames, 6 stores, 2 room. Sealed Drone brood		may need to make room in brood nest for Queen to keep laying
1	Queen not seen, ELB 4 frames, stores 3, room 4, Drone brood sealed.		
3	Queen not seen, ELB 5, stores 2, room 4		ready for super in 2 weeks
2	queen not seen, ELB 0, stores 8, room 3, 3 seams of bees	have moved hive 3 feet closer to next hive so can be united	
7	Queen not seen, ELB 4, stores 4, room 3, Drones walking around, drone & worker brood very mixed across the brood comb also one charged queen cell, Queen could be failing and that would be my best guess		
6	Nuc box, Queen seen, ELB 2, stores 0, room 2, Queen laying well		could do with a food comb next visit
9	Queen seen, ELB 5, stores 4, room 1. Sealed Drone brood		may need super in two weeks' time

Notes: may need to do uniting very soon will need to do it the next two weeks and may need to do a three way until with Nuc, Hive 7, Hive 2

PS TONY store cabin & apiary very tidy well done that man
