

Apiary Summary – Information to inform next inspection

Lead: **Andy Ormiston**

Assistants: Mark A, Peter M, Lori M, Natasha N

Date: 11/06/2023

Weather: Sunny

Hive	Brief Summary	Today's Actions	Actions for next time/week
1	Queen was seen, ELB. Plenty of room	checkerboarded the supers	Routine inspection
2	Using as a bait hive	No actions were taken today; they were left in situ	Keep in place to use as a bait hive and use the frames for the existing nucs if this hive has stores.
4	Queen was seen, eggs and Larvae, a small colony. R/I	Routine inspection. The queen was seen, and eggs & larvae were seen. The super was removed as no activity & a super was required on a different hive.	Routine inspection, Mark the queen if seen.
5	No queen, Eggs or Larvae was seen.	Added one frame with eggs from hive one and moved a frame of stores out into hive one. The super was removed as no activity & a super was required on a different hive.	check for queen cells on the added frame (middle of the brood)
6	routine inspection. The queen was seen. ELB moved two frames towards the outside as these need replacing.	Routine inspection. The queen was seen. ELB. two frames were moved outwards as they need replacing	Routine inspection. check the frames that need replacing and move out/replace them if possible (no brood)

7	Routine inspection, the Queen was seen. ELB	moved the broken frame to the end (marked as xx) once the brood has gone, replace the frame.	Check for brood on the broken frame (xx).
8	Routine inspection, the queen was seen, and super was added.	Good brood pattern. Routine inspection.	Routine inspection.
N1	full of bees, ELB queen (yellow) was seen.	Bees could not access the fondant; this was sorted. Fames of eggs was moved to Nuc 4.	Routine inspection. Check they can access the fondant. Look to see if these are ready to sell or move to a hive.
N2	Routine inspection. the queen was seen (yellow) with four frames of brood and one stores	1:2 syrup was added	Consider selling the Nuc. Note: one frame is BS National deep. sell with £10. discount?
N3	The queen was seen (yellow) ELB.	Routine inspection.	Routine inspection. Consider selling for £90 for four frames.
N4	The current Queen cells were not viable. Added frame from nuc one.	Added frame from Nuc one. Knocked back the existing queen cell.s	check for viable Queen cells. Knock back all but one or two.
